

Dear member!

Your association SRH Campus Sports e.V. has to adjust the membership fees moderately, which have been stable for several years, by the date of 1st of March 2023 in order to be able to cover the increased energy prices (electricity, heating, other operating costs) and the effects of inflation. All expenses and income of the SRH Campus Sports e.V. are currently under scrutiny. The adjustment of membership fees is only one of many building blocks to stabilize the association after the difficult Corona years and in view of the current price increases. These and other measures were agreed with the association's delegates at two delegates' meetings on 08th of November 2022 and 24th of January 2023.

From 01.03.2023 the following new membership fees will apply:

Category	New designation	Previously basic fee	New Designation		
			Adults	Students SRH University	Youths under 18 years
Category 1+ (Sauna)	red	47,-	52,-	44,-	40,-
Category 1 (Schwimmbad)	yellow	32,-	36,-	28,-	26,-
Category 2 (weightroom+ courses)	blue	26,-	29,-	21,-	21,-

The fee for sustaining membership (€ 3.50) remains unchanged.

In addition to the fee adjustment, we have decided to no longer offer category 4 membership (basic offer, use of sports hall) to new members in the future. However, existing members of this category can keep their status or change to another category free of charge.

What subsidies are available to you as a member to mitigate your fee adjustment?

Three ways to generate added value for you:

(1) Sports club cheques: Since 24 January 2023, the German Olympic Sports Confederation (DOSB) has made a total of 150,000 sports club cheques worth EUR 40 each available to members of sports clubs - you can find the application form here:

<https://foerderportal.dosb.de/gutscheinaktion/sportvereinscheck/>

We will be happy to assist you with your application.

(2) Health insurance companies support / take over membership: Several health insurance companies (e.g. DAK or AOK) offer their members discounts, premiums or cash credits for membership in a sports club. More information can be obtained directly from the health insurance company, or a general overview can be found here: <https://www.krankenkassen.de/gesetzliche-krankenkassen/leistungen-gesetzliche-krankenkassen/gesundheits/fitnessstudio/>

If the health insurance company requires proof of membership in Campus Sports e.V., we will be happy to provide this.

(3) Members recruit members: You recruit a new member and get a monthly fee waived. The more members you recruit, the cheaper the membership becomes. The new member starts without a registration fee.

(4) Donation marathon: The SRH Campus Sports e.V. will hold a donation marathon in spring 2023. Club memberships will be raffled off among all donors (a donation receipt will be issued for each donation). The fundraising marathon will be flanked by a modern campus pentathlon: Together we will swim, cycle, run, lift weights and sweat in the plank.

(5) Workshop: On 25 February, we will work together on the future of our SRH Campus Sports e.V. with the help of creativity techniques and innovative methods from the field of design thinking. If you are interested, please register by email: (johannes.sauerwein@googlemail.com), the number of participants is limited.

With your support we would like to stabilise the SRH Campus Sports e.V. economically and shape the future according to your ideas - an association lives from its members. The goal of SRH Campus Sports e.V. was, is and always will be to enable us all to enjoy our beloved sport!

We hope for your understanding, loyalty and support.

Best wishes

Board of Directors and Management and your team of SRH Campus Sports e.V.
